The TM CRUX UK Smaller Companies Fund (B Accumulation GBP) returned -0.3% against its performance comparator the IA UK Smaller Companies Sector return of 1.5% over the month of July 2023. UK equities rose over the month as headline inflation came in lower than expectations at 7.9%, while core inflation also fell to 6.9%. Investors began to unwind their expectations of continued aggressive interest rate hikes by the Bank of England. At a stock level, the main detractor from performance was Jadestone which fell c.35% over the month after shutting down its Montara field in order to investigate technical issues, leaving the shares trading on a c.70% discount to net asset value. The main contributor to performance was Kooth which performed strongly following the announcement of further detail around the California contract and fundraising at a premium (which the fund participated in) to execute this extremely large contract and position the company for future opportunities.
